

**University of California, Los Angeles
CHANCELLOR'S ANIMAL RESEARCH COMMITTEE (ARC)**

Tissue Sharing Form

If your funding agency requires formal IACUC approval for the use of animal tissues, the ARC requests that a tissue sharing protocol be submitted using the online Research Application Tracking System (RATS, available at <http://rats.oprs.ucla.edu>). If you have questions regarding the ARC's tissue sharing requirements or need assistance completing a tissue sharing protocol via RATS, please contact the ARC staff (310-206-6308 or arc@oprs.ucla.edu).

| Tissue Recipient | | |
|--|---|------------------|
| Institution | UCLA | Other (specify): |
| Principal Investigator | Last name: | First name: |
| Animal research protocol | Number: | Expiration date: |
| Tissue(s) to be obtained | Type (e.g., organ tissue, oocytes, blood, CSF): | Animal species: |
| Please provide a brief description of the research you will conduct using the tissue(s). | | |
| | | |

| Tissue Donor | | |
|--------------------------|------------|------------------|
| Institution | UCLA | Other (specify): |
| Principal Investigator | Last name: | First name: |
| Animal research protocol | Number: | Expiration date: |

| Assurances | |
|-------------------|--|
| | Tissue sharing will not increase the number of animals used in an approved protocol nor will live animals be subjected to any changes in procedures beyond those approved in the protocol of the investigator providing these tissues. |
| | Live animals will not be transferred from the investigator providing the tissue for the purpose of harvesting the tissue. |
| | In accordance with University Policy, personnel having contact with animal tissues at UCLA or under UCLA-sponsored projects will submit a Medical History Questionnaire (MHQ) form to the Occupational Health Facility on an annual basis. |
